44 L. Basket with mounted handles, Grey

44 L. Basket with mounted handles, Grey

Item no.: 25.244.44

With success we have created probably one of the strongest Plastic Basket in the world for use in the fishing industry.
The plastic basket is excellent for handling of Fish and Shellfish, especially Shrimps, Prawns and Lobsters.
The 44 L. Basket was designed in 1977 and is being produced today in the same surroundings as then.
This capability is a proof of stability and quality.
This new edition of the 44 L. plastic basket has been developed with stronger mounted handles, reinforced ribs under the top edge for stability at stacking and to avoid jam.
The handles are produced in Nylon which makes them very strong and pleasant to grip.
The bottom is improved and designed with perforate, which makes a better outflow.
The basket is designed for hard use and is produced in PELLD material which makes it very soft, high-impact and able to withstand all kinds of weather.

Mounted grey handles.
Improved bottom.
Ribs under the edge for stability at stacking and to avoid jam.
Capacity: 75 kg / 165,3 lbs.
PELLD is resistant to most of acids and bases.
The baskets are produced in material approved for food contact.

BASKET Item no.	Colour	Size L / US Gallon	Diameter Top cm/in	Diameter Bottom cm/in	Height to top of basket cm/in	Height to top of handle cm/in	Weight kg / lbs	Number per pallet
