We confirm that the above mentioned products fulfill the requirements on materials and articles used for food contact as described in the European Regulation 10/2011/EC as amended.

Monomers and additives used for the manufacturing of this product are all listed in Annex I of Regulation 10/2011/EC as amended. None of the substances used are restricted by specific migration limits.

The product contains the following dual use additives: TiO<sub>2</sub> and Calcium Stearate.

The product does not contain a functional barrier as defined in Regulation 10/2011/EC.

**Food contact:** *No limitation*

**Usage temperature:** Min. temp.: -30°C.  
Max. temp.: 80°C.

**Max. Wash temperature:** 100°C.

Migration tests have been conducted according to the specifications set out in Regulation 10/2011/EC as amended using EN1186.

The product can be used for contact with all kinds of foodstuffs for a maximum of 70°C for 2 hours, a maximum of 100°C for maximum 15 minutes and at a maximum of 40°C for a maximum of 24 hours.

The item does not apply any danger to health or environment according to article 3 in Framework Regulation 1935/2004/EC. The item is manufactured according to Regulation 2023/2006/EC on good manufacturing practice. The item complies with current EU-legislation on plastic materials and articles intended for food contact as described in EC Regulation 10/2011/EC as amended as well as the Danish Executive Order no. 822 from 26/06/2013.
